

Beef burger

Ingredients used

ScanPro™ Beef 1100/F

Recipe suggestion

A burger is a meat product, which has been coarsely ground, formed into patties and frozen. This burger is a 100 % beef-based burger. ScanPro™ Beef 1100/F has been used to improve the juiciness and texture, and to maintain shape.

Ingredients	Amount
Beef meat (20% fat)	75.00
Water	16.45
Salt	1.20
Pepper, white	0.10
Dried onions	1.00
Rusk	3.00
Potato starch	2.00
ScanPro™ Beef 1100/F	1.25
Total recipe:	100.00%

Production procedure:

1. Mince the beef meat through a 3 mm hole plate.
2. Add the minced meat to the mixer.
3. Add ScanPro™ Beef 1100/F and all other dry ingredients.
4. Add water and mix until homogeneous.
5. Form the minced meat into patties/burgers and freeze them.
